Our teams are based in Argentina and consist of highly experienced lawyers, tax specialists, and accountants, with years of expertise in company formation specifically in Argentina and providing support to investors from around the world.

What sets us apart, beyond the quality of our professionals, is that **all services are centralized within a single, coordinated team**. This integrated approach allows for seamless communication, faster decision-making, and a unified strategy tailored to your business needs, giving you confidence that every aspect of your investment is handled efficiently and professionally.

Local mandatory manager & tax - accounting services

We provide a complete monthly service package that includes a mandatory local director as well as accounting and tax services, ensuring full compliance with all regulations.

This integrated support allows your new company to start selling its products or services as quickly as possible, while giving you peace of mind that every legal, financial, and operational requirement is being professionally managed.

In Argentina, every company is required to have a local director. This director assumes legal responsibilities personally, **meaning that some obligations are held in their own name, not on behalf of the company**. As such, providing a local director is a service that carries personal responsibility, and it is essential to appoint experienced professionals who can manage these duties reliably and responsibly.

**STEPS OF COMPANY REGISTRATION
OPEN COMPANY ARGENTINA**

Frequently Asked Questions (FAQs):

1. Can foreigners register a company in Argentina?

Yes. Foreigners can fully own and operate companies in Argentina. There are no citizenship or residency requirements for shareholders. However, at least one local director may be required.

2. Do I need to travel to Argentina to register a company ?

No, we handle all the process, end-to-end without asking the investor to travel to Argentina.

3. What types of companies can be registered?

The most common structures for foreign investors are:

- Sociedad de Responsabilidad Limitada (SRL) – Limited Liability Company
 - 2 to 50 partners
 - Liability limited to capital contribution
 - Simpler administration
- Sociedad Anónima (SA) – Corporation
 - Minimum 2 shareholders (or 1 if a sole shareholder SA)
 - Liability limited to capital contribution
 - Preferred for raising investment or listing shares
- Sucursal de empresa extranjera – Branch of a foreign company
 - Registered in Argentina but fully dependent on the parent company
 - Must have a legal representative in Argentina

4. How long does the registration take?

- SRL: 3–4 weeks
- SA: 4–6 weeks

Delays can occur if client's documentation is incomplete.

5. What are the minimum capital requirements?

Our team will assist in the minimum capital requirements, this might change based on the company activity and type of entity.

The law requires certain minimum numbers (usually low in USD for S.R.L. type), but our expert might advise you to formalise it with a 30% or 40% more in order to gain rapidly approval and avoid objections from the justice.

6. What taxes do companies face in Argentina?

- Corporate Income Tax: up to 35%
- Value Added Tax (VAT): 21% standard rate
- Gross Income Tax: Provincial tax (varies by jurisdiction)
- Social Security Contributions: For employees

Frequently Asked Questions (FAQs):

7. Can a foreign company repatriate profits?

Yes. Dividends can be repatriated, withholding tax on dividends is generally 7%.

8. Can I do business immediately after registration?

Yes, once you obtain the CUIT (tax ID) and register for VAT and municipal permits (if applicable). Opening a bank account is essential for commercial operations.
